Ongoing Programs 

## **Museum of the Rockies: 5 Dinosaur Families virtual program**

How do scientists categorize dinosaurs? Long necked sauropods, frilled ceratopsians, and duck-billed hadrosaurs are only three of the five groups of dinosaurs that we will explore in this program. Join museum educator Dillon Warn to learn more about the lives of these incredible dinosaurs!

(Grades K-3)

## **Teen Transition Support at the Education Center**

Time to plan what happens after graduation? We've got you covered! Join us for first-time resume writing, college application assistance, USAJobs and first-time employment tips, Dual Credit, AP Classes, & class schedules.

(Grades 9-12)

## **Museum of the Rockies: Famous Dinosaurs of the Hell Creek Formation virtual program**

The Hell Creek Formation in Montana and surrounding areas contains the fossils of some of the last non-avian dinosaurs to walk the Earth. *Tyrannosaurus rex*, *Triceratops*, *Pachycephalosaurus*, and more all roamed the area about 66 million years ago. Join us to travel back to the end of the Cretaceous Period and meet the dinosaurs of the Hell Creek Formation!

(Grades 2-6)

This program runs through the school year and teens only have to sign up once to continue receiving monthly bags. Bags are ready for pick up on the third Friday of every month.

(Ages 12-18)
